## How to voice your opinion

The most effective way to communicate questions or concerns about a proposed development application is by reaching out to the City of Calgary file manager for the application.

To find the contact information, follow the link next to the address for which you'd like to comment on our '[Current Applications](#)' page. Or, [visit the City of Calgary Development Map](#), locate the property you are interested in, click the development permit link (house-shaped icon), click 'Find Out More' and scroll down to 'Contact Information'.

Please keep the community association informed of written correspondence by copying [admin@ngpca.ca](mailto:admin@ngpca.ca), allowing us to track resident responses.

You can also email our planning and redevelopment committee at [redvelopment@ngpca.ca](mailto:redvelopment@ngpca.ca). They will collect comments and do their best to find answers to any questions you may have.
